Convention Center Garage Inyo and “O” Streets

The Convention Center Parking Structure features 5 levels and 1,565 parking spaces, including 8 motorcycle spaces and 26 disabled parking spaces. The facility supports the Federal Courthouse, the Saroyan Theater, the Convention Center, Exhibit Hall, and various downtown businesses in the area.

Primary users such as Federal Courthouse employees will have access to monthly parking permits. Federal Jurors will also be able to use the structure and receive validation for their parking through the Courthouse.

One-time guests will have access to the **AUTOMATED “PAY ON FOOT”** system. Here’s how it works:

- The customer receives a ticket from the machine at the entrance to the garage
- The customer **TAKES THE TICKET WITH THEM** when they leave the garage
- Upon return, the customer inserts their ticket into one of the “PAY ON FOOT” machines, located at the garage foot entrances and elevators
- The machine will determine how long the car has been in the garage and calculate the fee
- Customer pays the machine, using cash, change, Visa or Mastercard.
- Upon payment, an **exit ticket** will print. The customer will insert their ticket at the exit gate and quickly depart. The exit ticket is good for 20 minutes after it is issued.

The “PAY ON FOOT” system has a significant environmental impact in that it prevents idling at the exit point to pay fees. It also decreases wait time to depart during peak hours. The credit card payment option is an added benefit for customers who do not often carry cash.

Ace parking will have an attendant on site to assist customers with the system, as well as to respond to courtesy calls. Courtesy boxes are located next to each elevator and stairwell to assist parking structure guests with questions or in the event of an emergency. *Please observe posted signage in the garage indicating if any portion or level of the structure is reserved.*
